INDEPENDENT AND PROGRESSIVE

Baldwin Directory Company, publisher of the Asheville City Directory, is an independent organization, in no way connected with any national association, combination or directory "trust". Its policies are laid down with a view to serving the individual directory subscriber and the general public. It is a progressive company, constantly on the alert to improve its service.

The ABCD type of city directory was originated by the Baldwin Directory Company. While many publishers have been content to rest on their laurels, issuing the same type of directory used thirty years ago, the Baldwin organization has led the way to the production of a modern city directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants associations and individual business concerns are invited to write for particulars concerning this type of directory service. In the future as in the past Baldwin directories will stand for the highest ideals in public service.

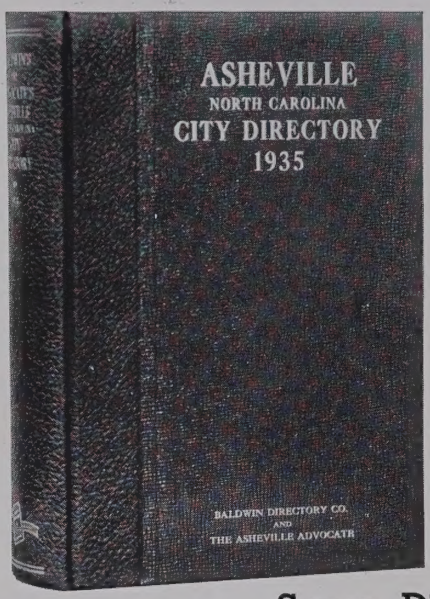
INTRODUCTION

Baldwin Directory Company, publisher of the Asheville City Directory, takes pleasure in presenting the 1935 edition to the general public. A large force of trained enumerators and solicitors worked diligently in the preparation of this volume and we are confident that the result is an authentic and useful city directory.

We have confidence in the continued growth of Asheville and we believe that our directory will take its place as one of the vital instruments for the advancement of the community. A new edition will be issued promptly each year in association with the Asheville Advocate.



The Asheville directory is a fine example of the ABCD type of city directory as originated and developed by the Baldwin Directory Company. In the modern business world, with its greatly changed sales and credit systems, the old type of directory has become completely obsolete. In adapting the directory to modern conditions the Baldwin organization has been the pioneer. The excellent city directory which Asheville now has is the result of the progressive spirit of this company and its accurate interpretation of modern business requirements.

Seven Divisions of the Book

The principal departments of the Asheville directory are as follows:

1. **The Miscellaneous Directory,** which starts on page 21, contains a great deal of useful information concerning the national, state and local governments. In it are listed the names of members of congress and the state legislature, judges of the various courts, and city and county officials. This section also gives legal holidays, population of cities, counties and states, capitals and county seats, and other valuable data.

2. **The Buyers' Guide, Civic Section and Professional Blue Book,** which starts on page 33, is made up of the advertisements of the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and professional cards of public-spirited lawyers, physicians and dentists. The display spaces have been carefully grouped and indexed under headings which are descriptive of the business engaged in by each firm. The Buyers' Guide, when properly arranged and distributed, is of tremendous value in the building of business in the community.

3. **The Resident Directory,** which starts on page 137, contains most of the data concerning the individual. The wife's name is given in parenthesis, and the number of dependents under 16 is shown as well as the ownership of homes. This is followed by position, place of employment and home address.

4. **The Householders' Directory and Telephone Street Guide,** which starts on page 575, gives the names of all householders arranged as they

come upon the streets and avenues, and gives the telephone number at each house.

5. **The Business Directory and List of Nationally Advertised Brands,** which starts on page 793, contains the names of all business firms, professional people and non-profit organizations, properly classified. In this division are listed the names of nationally advertised brands of merchandise, with the name of the local agents anddistributors.

6. **The Numerical Telephone Directory,** which follows the Business Directory is a valuable reference list in every business office.

7. **The Rural Routes Directory,** which follows the Numerical Telephone Directory, is used constantly in reaching rural residents with advertising matter and other mail.

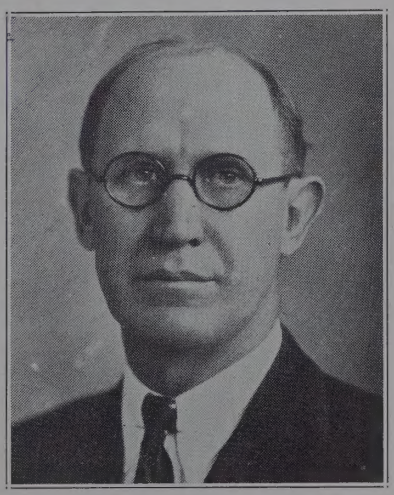
WILLIAM J. REUSING

Special A B C D Features

The following valuable information is used in the ABCD type of directory, but not in the old-fashioned city directory:

Number of dependents under 16;
Designation of home ownership;
Telephone Numbers on Street Guide;
Numerical Telephone Directory;
Nationally Advertised Brands;
Rural Routes Directory.

In addition to these valuable additions, the ABCD type of directory is more conservatively styled, printed on better paper and more durably bound, arranged for more convenient use and contains a much more complete civic section. Directory stands are maintained in the business district for the use of the general public.



OTTIS GREEN

The Householders' Supplement

After including every conceivable feature which would tend to make the directory as useful and attractive as possible, the originators of the ABCD type of directory made one more bold stroke—they established a guaranteed **home** circulation for all advertising matter by issuing the Householders' Supplement and delivering it to the homes of the community through the local Merchants Association. Every advertisement which appears in a Baldwin city directory also appears in the Householders' Supplement, making the Baldwin directory "the greatest dollar-for-dollar advertising medium in the South" today.

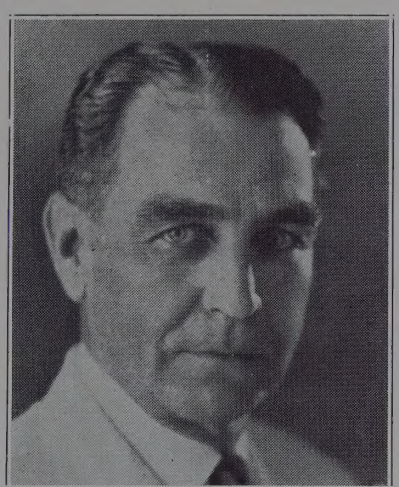
ASHEVILLE
"In the Land of the Sky"

By JOHN D. TOPPING
Publicity Director
Asheville Chamber of Commerce

Asheville, North Carolina, the county seat of Buncombe County and principal commercial center of Western North Carolina, has a population of 50,193, according to the 1930 census. The population of the county in the 1930 census was 97,937.

A RESORT CENTER

Asheville is a resort center of international fame. The altitude of 2,300 feet above sea level being conducive to cool summers and the latitude in the mid-southern region influencing mild winters. The Asheville section entertains many hundreds of thousands of visitors every year, due to the attractions of the climate and the surrounding scenic beauty of "The Land of the Sky."



FRED L. WEEDE
Manager
Asheville Chamber of Commerce

HISTORY

Asheville was founded in 1797 by John Burton and was at that time named Morristown. A few years later the city was renamed Asheville in honor of Samuel and John Ashe, noted men of the period. The city has long been a trading center and its development as a resort center covers the greater part of a century.

The Western North Carolina section, termed "The Land of the Sky," gained this name from a novel by Mrs. Christian Fisher Tiernan, who wrote under the name of Christian Reid.

GOVERNMENT

Asheville is governed under the Council-Manager form of administration. The city council consists of nine councilmen including the mayor. Administrative departments are headed by the city manager. Asheville has one of the finest fire departments in the United States, the city having one of the lowest fire records of any city of the size in the country. The police department is one of the most efficient in its type of organization, the department using squad cars and radio communication in cooperation with county police departments.

Buncombe County has the commission form of government, the board consisting of three commissioners in charge of departments of the county government. City and county governing bodies are housed in the fine city and county buildings flanking the central city plaza.

SCHOOLS

School systems of Buncombe County and of Asheville have been developed to a high point of perfection. The system offers every facility from the grammar grades up to and through junior and senior high schools. A junior college is a part of the system. Physical equipment in the way of school buildings, has been developed to a high state of perfection, the county schools operating on a consolidated basis with good high schools and with bus transportation for students. Like other schools of North Carolina, the system is state-maintained.

WATER SUPPLY

Asheville's water supply comes from the summits of the highest mountains near the city. The water system operates by gravity and the water itself is of the purest quality obtainable. The lack of solids and soluble matter in the water gives it a delightfully soft character similar to pure distilled water. It may be used in storage batteries without distillation and is particularly valuable to

industries requiring a chemically pure water supply.

CLIMATE

Asheville's climate is noted for its health-giving qualities. The altitude of the city, 2,300 feet above the sea, is conducive to an

CAPTAIN ARCHIBALD NICHOLS
Secretary-Manager
Asheville Merchants Association

exhilarating atmosphere having curative qualities for a number of pulmonary diseases and is particularly beneficial also to many nervous afflictions.

In the region of the highland country, particularly at Asheville, are located many institutions for the treatment of sufferers from these afflictions. Sanatoria of the Asheville section are famous throughout the world, and have made this city a great health center as well as a recreational region.

HOMES

Asheville is a city of fine homes. The many fine residential sections are of a type to be found in cities of much larger size. Many of the city's residents are retired from active business, having chosen Asheville as a home site after retiring from business activities in other sections of the country. Noted residential sections include Biltmore Forest, Malvern Hills, Lake View Park, Kenilworth and Grove Park.

COMMERCE

Asheville is the trading center for 18 counties of Western North Carolina. Here are located the distributing offices for commercial enterprises of this wide trade territory. Because of its trading area, and its large volume of tourist trade, the city has become equipped with fine stores offering a great variety of high class merchandise.

The city has been consistently one of the leading cities of the state in retail trade and is naturally a great wholesale center for the region.

The tobacco market established here five years ago with one warehouse, has grown to a point where four warehouses are now in operation and millions of pounds of fine Burley tobacco are sold here annually during the winter months. The Burley of the highlands is of the finest quality and commands top prices on the market. All of the crop sold on the Asheville market is grown on the mountain farms of the section.

POINTS OF INTEREST IN ASHEVILLE

Attention of visitors in the city is focussed upon a number of points of scenic, artistic and historic interest. The Asheville scenic highway, which traverses some score of miles along the summits of the mountains near the city, is one of the attractions of appeal to all visitors. This highway reveals to the motorist a series of panoramic views of the highland country, unsurpassed for their beauty.

Biltmore House and Gardens, the famous mansion built here a half-century ago by the late George W. Vanderbilt, is one of the favored points visited by tourists. The house itself is open to public view and contains a priceless collection of artistic and historic interest, collected in all parts of the world by Mr. Vanderbilt.

Included in the house collection are the chessmen of Napoleon, the ceremonial

JACKSON BUILDING

robes of Cardinal Richelieu, andcient and priceless tapestries and other objects of similarly great value. Surrounding the house are the vast gardens which are a mass of bloom through the growing season of the year, and the great 15,000-acre estate with

its parks, farmlands and model dairy.

In Riverside cemetery is to be found the only monument ever erected by American soldiers to the memory of their foreign foes. This is the monument to eighteen German sailors who died in an Asheville hospital during the World War and whose graves remained unmarked until this generous gesture was made by Asheville Legionnaires. In the cemetery also are located the grave of Zebulon Vance, war-time governor and statesman of North Carolina and the tomb of O. Henry, famous short story writer.

In the Asheville city library is to be found the O. Henry collection of contemporary books autographed by their authors and collected and established in honor of O. Henry. The Biltmore Industries, where mountain weavers manufacture homespun cloth, is a point of interest to visitors and the nearby Grove Park Inn, noted for its construction from huge mountain boulders, its enormous central "big room" and huge fireplaces, is often visited.

HOTELS AND INNS

Asheville, because of its resort trade, is equipped with some of the finest hotels to be found in any city. In addition to the noted Grove Park Inn, The Manor in Albemarle Park is one of the well-known hostelries of the city. European plan uptown hotels include The George Vanderbilt, the Battery Park, the Asheville Biltmore, the Langren, the Hotel Charmil, the Hotel Asheville, the Swannanoa-Berkeley and others.

In the nearby resort region are many mountain inns and hotels which offer many and varying types of comfortable accommodations. In short, in the Asheville section the visitor may obtain any variety of accommodation desired.

SCENIC BEAUTY

Noted for its scenic beauty, "The Land of the Sky" offers many points of interest which are of international fame. Near Asheville in the Blue Ridge section short motor trips take the visitor to Chimney Rock, towering a thousand feet on a mountain slope above the blue surface of Lake Lure, to Mount Mitchell, highest peak in eastern America, and to the Royal Gorge beyond Black Mountain, N. C.

A longer tour will take the traveller to the famous high altitude section of Blowing Rock, N. C., where the noted rock with its peculiar upward current of air may be seen. In this same region the Linville resort region with Table Rock, Hawksbill, Grandfather

Asheville Normal and Teachers College

Mountain and the Linville Falls and Gorge, are of interest.

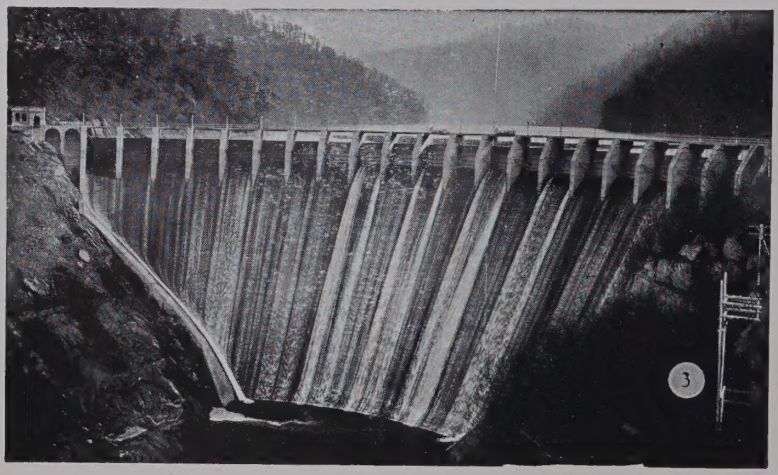
In the Tryon section of the southern Blue Ridge is the noted thermal belt which is a region free from dew and frost and a noted center for grape culture. This is also a winter and spring resort center, famous for its hunt club and spring horse show.

The Sapphire Country with Whiteside Mountain and many waterfalls, as well as many golf courses and resort centers, is an attractive region for touring parties. Resorts and scenic points near Hendersonville and Waynesville are of interest to travellers.

Chimney Rock
One of the most beautiful views in Eastern America

NATIONAL FORESTS

Western North Carolina is heavily wooded and has earned a national reputation for its trees. It has large areas of forest lands set aside for forest preserves in the Pisgah, Nantahala, Cherokee and Unaka National Forests. These forest areas are public recreational centers, as well as national conservation areas. Within their boundaries are located five great game preserves and the streams of the forest are stocked with brook and rain-

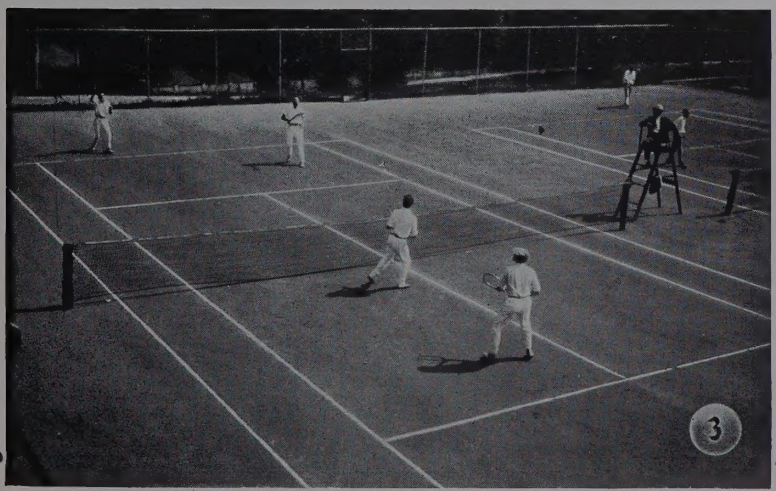


A Hydro Electric Plant

OUTDOOR SPORTS

SWIMMING POOLS ATTRACT MANY DURING THE SUMMER

HORSEBACK RIDING IS A FAVORITE SPORT IN ASHEVILLE



TENNIS IS POPULAR WITH YOUNG OR OLD

bow trout. Public camping grounds are provided in the forests and the region has an extensive number of trails through the mountains which are very popular with horseback and hiking parties.

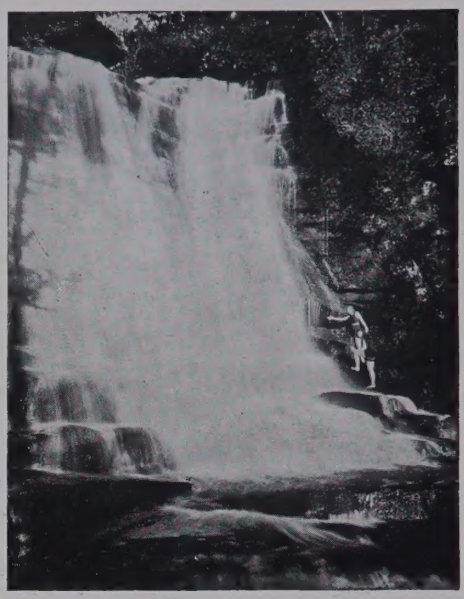
THE GREAT SMOKY MOUNTAINS

Asheville is the eastern gateway city to the Great Smoky Mountains National Park, one of the nation's newest playgrounds and probably destined to become the most popular of the national parks.

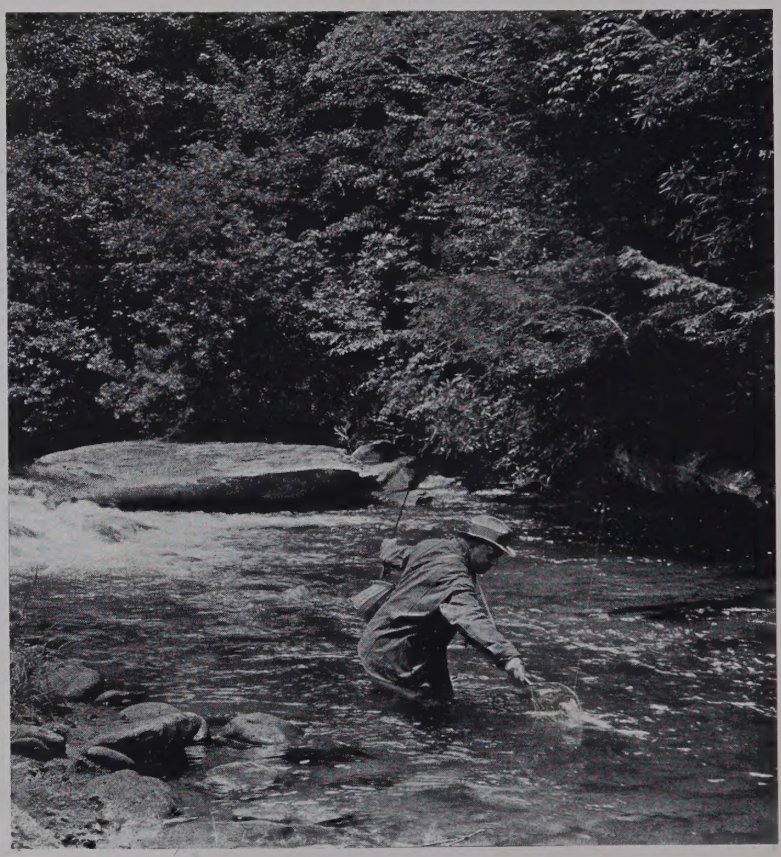
Located in a region of surpassingly beautiful mountain grandeur, the Great Smokies offer to the beholder a vast terrain of virgin wilderness where the forest still stands untouched by the ax of the lumberman and the towering ridges guard the last remnants of the original American wilderness.

In the Great Smoky Mountains are fifteen or more peaks which are higher than Mount Washington. The elevation of the base of these mountains averages about 1,200 feet above the sea. The highest summits rise to above 6,600 feet. In visual elevation as they appear to the beholder, they are as high as the Rockies and as impressive. (The Rocky Mountains rise from a base level of between 5,000 and 6,000 feet and therefore have the same visual impression of height as the Smokies.)

Because of the sudden change in level from base to summit of these mountains, the Great Smokies present to the scientist a great natural storehouse of plant and animal life, for study. At the base of the mountains the flora and fauna is similar to that indigenous to northern Georgia. At the summits of the great peaks and ridges may be found species of trees and forest conditions which are indigenous to southern Canada.



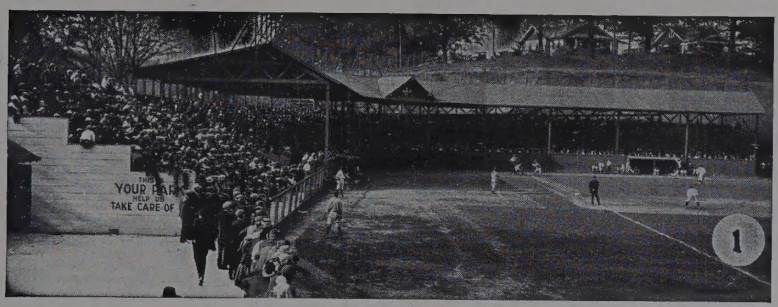
A WATERFALL IN THE GREAT SMOKY MOUNTAINS



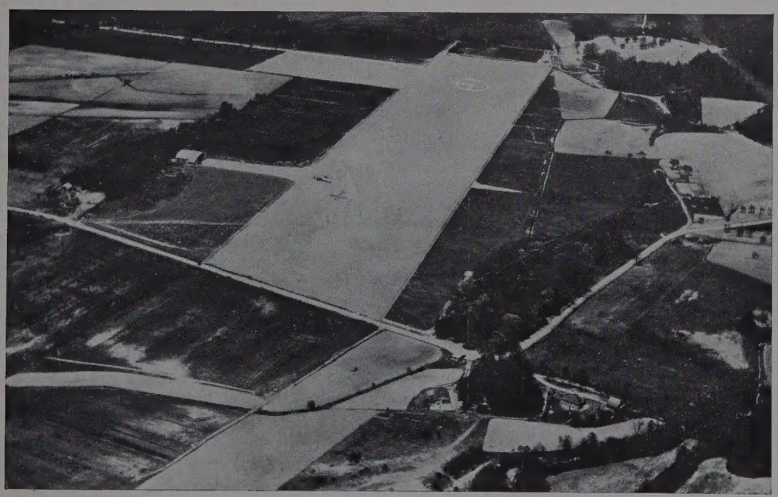
MANY HUNDREDS OF MILES OF FINE TROUT STREAMS ARE TO BE FOUND IN WESTERN NORTH CAROLINA

RECREATION

Asheville Country Club



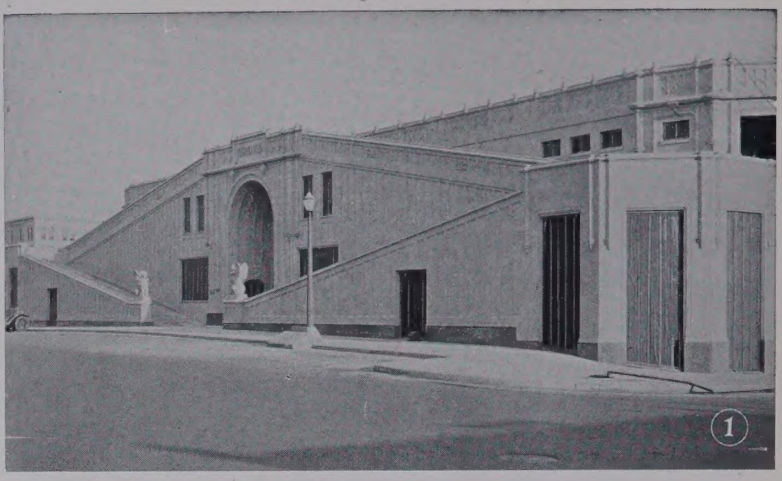
McCORMICK FIELD
The Pride of Asheville's Baseball Fans



The Asheville-Hendersonville Airport

Within the Great Smoky Mountains National Park therefore may be found more species of trees and plants than are to be found on the continent of Europe or in a transcontinental tour of the United States.

Since the establishment of the national park highways have been built into and around the great wilderness area, making it accessible to the motorist. The trans-park motor route which crosses the great ridge of the Smokies at Newfound Gap is probably the most popular route through the park and the completion of this highway in Tennessee, expected in 1935, will add to the flow of travel by this route.



ARCADE BUILDING
From the Battery Park Hotel

On the eastern boundary of the Smokies in North Carolina, 3,000 Cherokee Indians still dwell on their 60,000-acre reservation. The customs and native sports of these Indians are of absorbing interest to visitors in Western North Carolina who tour through the national park.

The game of Indian ball, an ancient form of lacrosse, the blowgun and archery contests, occasionally staged, and the native arts and craftwork in Indian baskets, beadwork and the like, are a part of the exotic glamour surrounding these people. The Eastern Band of Cherokees are the last of their nation living on their original hunting grounds in the east.

THE PARKWAY

The Federal Government has appropriated $16,000,000 for the construction of a magnificent scenic highway to connect the Shenandoah National Park in Virginia with the Great Smoky Mountains National Park in North Carolina and Tennessee. This great motor route will traverse the highest ranges of the Appalachian highlands through Virginia and North Carolina to the Great Smokies.

When completed, this route will be one of the most ambitiously designed tourist routes in the world. It will reveal to the traveler the finest scenic attractions of the eastern highlands and will offer vast panoramas of the mountains along the route.

At Mount Mitchell a traveller on the highway will have an opportunity to see from this highest point in eastern America a glimpse into the territories of seven different southern states. On the Craggies near Mitchell the highway will traverse the largest high altitude garden of the great purple rhododendrons to be found anywhere in the world. This vast garden is ten miles in length and in portions is more than a mile in width. During its blossom season in June and July the rhododendron area is one vast colorful mass of purple flowers.

ARCADE BUILDING
From Battery Park Place

Throughout its length the highway will be of outstanding caliber

INDUSTRIAL PLANTS

in its construction and in the beauty of the surroundings through which it will pass. Surveys of portions of the route are already under way and construction should be pushed forward with all possible speed following the completion of surveys.

SPORTS

Western North Carolina, because of its climate, has long been a region noted for its sports and other types of recreational activities. Asheville has five fine golf courses, the Asheville Country Club, the Biltmore Forest Country Club, the Malvern Hills Golf Club, the Lake View Golf Club and the Municipal Golf Links.

Approximately twenty other courses are to be found in other resort centers in "The Land of the Sky." Tournaments are held on various courses at various seasons, the highlights of the golf year being the invitation tournaments on the Asheville and Biltmore Forest Club courses in August, each season.

SUMMER CAMPS

Over 50 summer camps for boys and girls are located in the region near Asheville. These are listed among the finest camps of the kind to be found in the eastern United States. Their physical equipment is of the highest order and their type of summer activity programs attract many hundreds of boys and girls to this section every year.

INDUSTRIES

Due to abundant pure water supply and the generation of cheap electric power from the many mountain rivers and streams, the Asheville section has become in later years a growing center for industries.

Abundant forest areas of the mountains, the nearby cotton fields of the South, ample transportation facilities, the many differing mineral deposits and the products of the mountain farms produce raw materials for a great diversity of manufacturers.

Plants located here include those making rayon, finished cotton goods and cotton yarns, leather and wood products, mica products, mineral products, clothing, hosiery, the famous Biltmore Homespuns, food products, caskets, and a vast diversity of other manufactured goods.

THE ASHEVILLE CHAMBER OF COMMERCE

Serving all of Western North Carolina as an advertising, promotion and information agency, the Asheville Chamber of Commerce offers to visitors a well-rounded service of information. Those interested in home sites, in the health-giving qualities of the Western North Carolina climate, may secure such information from the Chamber of Commerce.

Those interested in the region as a location for industrial plants may find through the Chamber of Commerce helpful service of information and cooperation which will be very valuable.

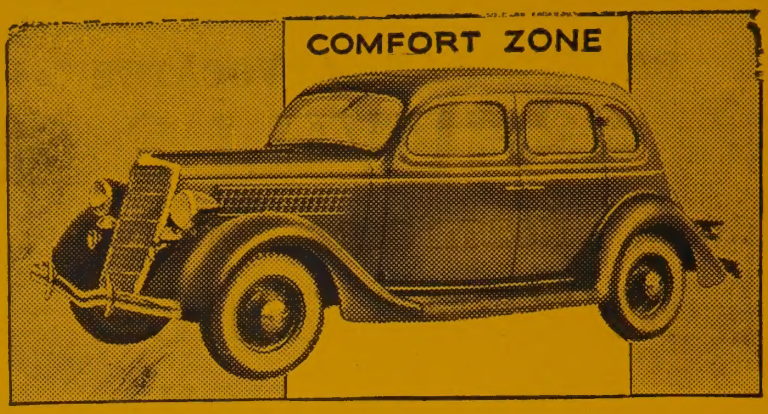
THE SHOW WINDOW OF ASHEVILLE

Copyright 1935 By Robert Morton Baldwin



"A front seat ride for back seat passengers." This is the essence of the Ford Comfort Zone story. The passengers are cradled between the springs on the new longer 123-inch springbase. The rear seat passengers are moved ahead of the axle—a feature which many of the largest cars do not offer. New and more perfect weight distribution in this year's Ford V-8 eliminates "pitching," while Ford's exclusive Free Action on All Four Wheels permits individual wheel and spring action over obstructions without transmitting the shock of impact to the passengers. New, large size air balloon tires complete the picture of Comfort Zone seating to give one of the smoothest rides on the American highway today.

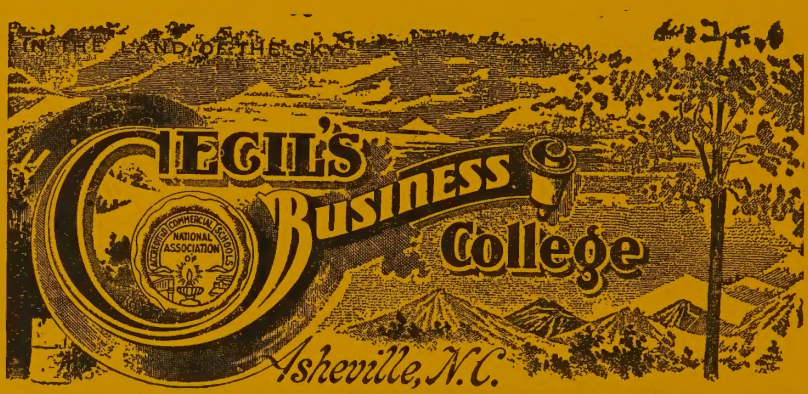
BUSINESS COLLEGES



CECIL'S SPECIALIZES IN BUSINESS TRAINING

The following five points suggest the merits of Specialized Training: (1) It has both a cultural and practical value. (2) It is a useful type of training. (3) It furnishes more opportunities for employment than any other kind of education. (4) Specialized Training develops and stimulates the success factors—initiative, thoroughness, vision, and dependability. (5) It prepares the student for self-support in a short time and at a small cost.
Day and Night Sessions. Visit our College. Satisfy yourself it pays to investigate.

QUALITY COALS

Radiant Lump

This is a real furnace fuel. It burns well, holds for hours, and is altogether a perfect furnace coal. No clinkers and little ash.

Royal Red Ash Egg

The ideal range, grate and jacket coal. Ignites quickly, gives intense even heat, and leaves little residue. Try a ton and be convinced.

WHEN YOU DRIVE AN UNINSURED CAR EVERYTHING IS AT STAKE!

Careful driving on your part won't eliminate the danger because YOU CAN'T DRIVE ALL THE OTHER CARS ON THE STREETS OR HIGHWAYS. You can't control the other fellow's car, apply his brakes, dim his lights, keep him from crowding on curves, keep him on his side of the road, and prohibit him from pulling out of drives and intersections directly in front of you. You can't keep children and pedestrians off the highways. Likewise you can't eliminate fog, rain, ice, and other factors which make bad driving conditions. The big hazards of driving are beyond your control. You need SAFE insurance for protection.

"No News Is Good News"

We earn a part of our living by writing automobile insurance, necessary and advisable because of losses, hardships and misfortunes that might come to you and others. Recent newspaper articles are rather discouraging. If by this unusual ad we can make you think—not lightly—but downright seriously of the value of a little more care (watch the other fellow—you have to be a mind-reader) in driving; then this ad will have well served its purpose. "No news is good news." Avoid the headlines in the papers by driving more carefully. This ad may cause fear and if it does may that be a forerunner of caution.

That Is Correct and Distinctive

THIS is one of the few Office Supply Houses in the Southeast that has its own Printing Shop. And that means something! Naturally, we carry in stock all the usual Office Forms, Record Sheets, etc. But there come times in every good office when something a little different is required. Our Printing Department is fully equipped to take care of all such cases. Just remember this in your next emergency!

Then, of course, we are particularly well equipped to print your Direct Mail Advertising Pieces . . . Blotters, Folders, Booklets, etc. Skilled Craftsmen are here to design and produce for you, Correct and Distinctive Printing.

TRUST DEPARTMENT

Welcomes opportunities to be of service to individuals, firms, and corporations, in any recognized Trust Capacity.

It is the Aim and Purpose of our Trust Department to serve our customers' needs as:

Executor or Trustee of their estates; as Trustee under Life Insurance Trust Agreements; as Guardian of Minors; as Trustee under Living Trust Agreements; and any other services required of a Trust Department.

May we serve you in one or more of these capacities?

THE MOST IMPORTANT DOCUMENT YOU WILL EVER SIGN IS YOUR **WILL**

Its proper execution is far too important to keep "putting off." Consider, too, the many advantages of naming this Bank as your Executor or Trustee.

NORTH CAROLINA

Resident Directory

1935

Containing the full name, husband's or wife's name, number of children under sixteen, designation of home ownership, position and employer and home address of all persons over 16 years of age residing in Asheville and surrounding territory. The names of the settlements, suburbs and towns covered in this directory, with the abbreviations used to designate them and the post office address of each will be found below.

The publishers wish to express their appreciation to the business and professional establishments for the splendid co-operation and valuable assistance given them in the preparation of this volume.

A list of the abbreviations used in this directory will be found on page 138 and a general index on page 3. The information contained herein was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory, and checked with data supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

For Population of Greater Asheville See Page 2

Number of dependents under 16 is indicated after name.

Below are listed special abbreviations for suburbs, settlements and small cities and towns included in the Asheville directory. In each case the proper post office address for persons living in the community is shown after the name.

AZ——Azalea (Azalea N C)
BD——Beaverdam (RD 1 Asheville)

The CITIZEN *and* The TIMES

WANT ADS

With Classifications to Meet All Your Needs

Cost Little ! Do Much !

You call 5500, ask for an ad-taker, and give your instructions. In a few hours your message is in thousands of homes. Willing, powerful workers, these little "Want Ads" —yet their cost is measured by pennies! There's a classification to meet every possible need. For right-now results — use The CITIZEN and The TIMES Want Ads!

Just Call

5500

and Ask for
An Ad-Taker!

"Dedicated to
The Upbuilding of
Western North Carolina"

BE INFORMED ... *fully* *and quickly* ... READ BOTH!

Certainly, in this fast-moving age, you want immediate and accurate information. Certainly, therefore, you want both The CITIZEN (morning) and The TIMES (evening). Read both—and get the news as it's made!

Furthermore, you'll enjoy the nationally-famous contributors they bring. You'll be stirred by their thoughtful and vigorous editorials. You'll like their sports news and gossip. You'll laugh with their comics.

Enter your subscription today . . . for BOTH!

The Asheville CITIZEN
The Asheville TIMES

Read Both - - They're Different!

City Directories of Character

Published in Selected Cities Throughout the South in Association with Daily Newspapers and Local Printing Establishments

Baldwin Directory Service is Unique!

No other publisher in the United States offers to the public a directory of the type issued by the Baldwin organization. Business firms using Baldwin directory service are unanimous in their acclaim of its many unique features.

BALDWIN DIRECTORIES OFFER TREMENDOUS ADVERTISING VALUE THROUGH THE NEW HOUSEHOLDERS' SUPPLEMENT WHICH IS PRESENTED TO THE HOMES

Baldwin Directory Co.

87 PATTON AVENUE

ASHEVILLE NORTH CAROLINA

The Greatest Advertising

A conspicuous and attractive advertisement can be purchased in any Baldwin directory at an extremely reasonable price. When making up his budget for publicity the wise advertiser will remember the many special features of Baldwin service. He will take into consideration the large home circulation, the convenient arrangement of the display space, the excellence of the printing and binding and the number of times the directory is actually referred to each day of the year.

The primary purpose of the Baldwin organization is, of course, the supplying of accurate and reliable directory information promptly and regularly at the lowest possible cost consistent with good service. For this reason it is possible to price the advertising space far below the amount which would be charged on the basis of value if the book were primarily an advertising medium. *There is no advertising medium in the South today which offers as much actual advertising value per dollar invested as Baldwin city directories.*

EVERY BALDWIN DIRECTORY MUST CONFORM STRICTLY TO THE SPECIFICATIONS PREPARED BY ROBERT MORTON BALDWIN

The Baldwin organization is ever on the alert for suggestions and recommendations which may increase the value of its service. At all times it co-operates with the local Chamber of Commerce, Merchants Association, newspapers and printing establishments. Its work is carefully planned and painstakingly executed.

All information supplied is authentic; a double-check system is used to insure accuracy. Trained census managers and enumerators check and re-check all data which appears in the city directory. The information is secured by a house-to-house canvass of the territory covered.

The Householders' Supplement is carefully prepared to meet the requirements of the home. It contains a complete business directory of the city, a civic section with full-page announcements and photographs of the larger churches, clubs, libraries, schools, public buildings and civic institutions and a list of nationally advertised brands of merchandise with the name and address of the local agent or distributor.

Newspapers, Chambers of Commerce, Merchants Associations and Others Interested in Further Information Concerning Baldwin Directories Should Write to:

Dollar-for-Dollar Value in the South

Every advertisement appearing in a Baldwin City Directory will be found also in the Householders' Supplement. The distribution plan for the supplement is thoroughly worked out and each copy is personally presented by a representative of the civic and commercial organizations of the city. The homes receiving copies of the supplement are carefully selected and there is very little dead circulation; almost every copy is referred to daily. *The live circulation of a Baldwin directory advertisement is actually from five to ten times that of an advertisement appearing in an average city directory, and the Baldwin distribution is primarily in the home.*

SPECIAL FEATURES

In addition to all of the regular departments usually found in city directories, Baldwin directory service offers many exclusive features. Some of these are as follows:

1. All home owners are designated in the alphabetical resident directory and also in the street guide.
2. The number of children under 16 is shown after the name of the head of each family.
3. A numerical telephone directory is given.
4. A telephone guide arranged by streets is included.
5. Each nationally advertised brand of merchandise is listed under the proper business classification, with the name and address of the local agent or distributor.
6. Full page announcements, with photographs when possible, of all the larger churches, clubs, lodges, schools, libraries and other civic institutions are included in a special civic section.
7. The directory covers not only the city itself, but also the smaller settlements and towns in the territory immediately adjacent.
8. The book is beautifully and durably bound in imitation leather.
9. Directory stands are installed in all public places so that the general public may have access to the directory at all times without cost.
10. An exact census is taken of each community and the directory gives the exact population.
11. The advertising is conveniently arranged to give the subscriber and the advertiser the best possible service.
12. A Householders' Supplement is issued in each city for the use of individuals in their homes. This gives the Baldwin directory a circulation five to ten times greater than the average directory.

Baldwin Directory Co.

87 Patton Avenue, Asheville, North Carolina

Baldwin Directories Are Published in Co-Operation With Local Newspapers and Civic Organizations

The Asheville Advocate

ASHEVILLE, N. C.

January 1, 1935

Mr. Robert Morton Baldwin
87 Patton Avenue
Asheville, North Carolina

Dear Mr. Baldwin:

I am more than pleased with the public response to the newspaper announcement that 3000 copies of the Householders' Supplement of the 1935 City Directory will be presented to the homes of Asheville and surrounding trade territory by the Asheville Merchants Association. Already they have received several hundred letters requesting that copies of this useful and attractive volume be reserved.

The Householders' Supplement will serve two purposes: (1) It will furnish to the homes a well-arranged book of miscellaneous information and a complete buyers' guide of the city, which will be cherished in later years as a 1935 souvenir of Asheville. (2) It will supply to the business firms a tremendously valuable medium of advertising at a very low cost. It is my opinion that through the supplement you have solved the difficult problem of raising sufficient money to pay for an accurate and complete city directory regularly. Business men are not reluctant to spend money for something of real worth.

I was glad that the Asheville Chamber of Commerce and the Asheville Merchants Association endorsed the Baldwin directory. You have many unique features which will greatly increase the usefulness of the book. I find that most firms are particularly interested in your designation of home owners in the resident directory and also in the street guide, listing of the number of children under 16 in each family, numerical telephone directory and street telephone guide.

The presentation of the supplement at each home by a personal representative of the Merchants Association will greatly increase the public interest in the directory and I am confident that next year we will have thousands of directory enthusiasts among the householders of Asheville. I am more than pleased to be associated with you in the publication of a directory of this character.

Very truly yours,

A. H. Thomas

Numerical Telephone Directory

1935

Containing a list of telephone subscribers arranged according to telephone numbers. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular Telephone Directory issued by the Southern Bell Telephone & Telegraph Company in order to verify the information contained herein.

ASHEVILLE

HERE IN FULL MEASURE ARE THOSE FACTORS DESIRABLE FOR A PERMANENT RESIDENCE AND A CLIMATE THAT BRINGS HEALING TO THE HEALTH SEEKER

Visitors to Asheville always comment on the large number of fine homes that are found here. One of the reasons is that hundreds of families, after a county-wide survey and thorough study of fundamental conditions, have found this city meets their real home demands. Climate, of course, is a basic factor. In addition are beauty of environment, abundant supply of pure water, geographical convenience, modern living accessories, schools and colleges, and hospitable, cultured neighbors.

Many of these families came here searching for health—and found it. A high altitude, dry air that is dust-free (due to the forest-covered mountain ranges), a low humidity, and a plentiful supply of pure milk and fresh vegetables. They also found here a skilled group of medical specialists.

The same qualities that brought health to the ill, maintain health in those who are well. And no factor is more important in the catalog of qualifications for the ideal home site.
